CCPA CATEGORIZATION		STATUS	TENTATIVE CLOSURE DATE
False urgency		-	06 Aug 2026
OBSERVATION	RECOMMENDATION		
Element "Thanks for all the effort you made. I really appreciate the work and dedication you have shown to your clients. Let me c" appears deceptive During the review of www.libertyinsurance.in/, the following was observed in relation to the identified <i>False urgency</i> pattern: Manually flagged by user Please refer to the Annexure for supporting evidence in this regard.	It is recommended that the responsible team evaluate and implement the following corrective actions, based on the nature of the identified pattern: Only show 'trending' or 'popular' labels if they are based on real-time, verifiable data. INDIA CCPA GUIDELINES CCPA Guidelines, 2023 - Specified Dark Pattern: False urgency False urgency: Fabricating popularity or demand signals to nudge purchase choices. EUROPE DSA/GDPR/UCPD EU UCPD - Article 6 & DSA Article 25(1) False Social Proof: Fabricating popularity notifications (e.g. '15 other people bought this') to nudge purchases.

CCPA CATEGORIZATION		STATUS	TENTATIVE CLOSURE DATE
Interface interference		-	06 Aug 2026
OBSERVATION	RECOMMENDATION		
A scroll-locked pop-up is obstructing page interaction. During the review of www.libertyinsurance.in/, the following was observed in relation to the identified <i>Interface interference</i> pattern: - Covers about 100% of width and 100% of height. - A close control may exist but is easy to miss. - Scroll-locking is active on the page body, preventing background scrolling and forcing focus on the popup.	It is recommended that the responsible team evaluate and implement the following corrective actions, based on the nature of the identified pattern: Add a clear close control, visible on mobile and desktop, and let keyboard users exit too.		
VISUAL PROOF CONTEXT 	INDIA CCPA GUIDELINES CCPA Guidelines, 2023 - Specified Dark Pattern: Interface interference Interface interference: Constraining user paths via popups or obstructive UI.		
	EUROPE DSA/GDPR/UCPD EU DSA - Article 25(1) Interface Interference: Constraining user flows or blocking interactions via difficult-to-close popups.

CCPA CATEGORIZATION		STATUS	TENTATIVE CLOSURE DATE
Interface interference		-	06 Aug 2026
OBSERVATION		RECOMMENDATION	
Visual Audit Required: Suspicious Close/Dismiss Icon. During the review of www.libertyinsurance.in/, the following was observed in relation to the identified <i>Interface interference</i> pattern: Icon detected in popup that functions as a close button. AI validation unavailable; falling back to heuristic warning. VISUAL PROOF CONTEXT  Please refer to the Annexure for supporting evidence in this regard.		It is recommended that the responsible team evaluate and implement the following corrective actions, based on the nature of the identified pattern: Ensure all icons and imagery accurately reflect the associated action. Do not use non-standard visual metaphors (e.g., a checkbox that is actually a radio button) to confuse users. INDIA CCPA GUIDELINES CCPA Guidelines, 2023 - Specified Dark Pattern: Interface interference Interface interference: Visual design manipulation to deceive users. EUROPE DSA/GDPR/UCPD EU DSA - Article 25(1) & UCPD Article 6 Visual Manipulation: Using misleading icons, colors, or deceptive visuals to trick users about functionality.

CCPA CATEGORIZATION		STATUS	TENTATIVE CLOSURE DATE
Bait and switch		-	06 Aug 2026
OBSERVATION	RECOMMENDATION		
Visual Audit Required: Potential Bait and Switch element. During the review of www.libertyinsurance.in/health-insurance/health-connect-policy.html, the following was observed in relation to the identified <i>Bait and switch</i> pattern: Element contains high-risk action text: " d" AI validation unavailable; falling back to heuristic warning. VISUAL PROOF CONTEXT  Please refer to the Annexure for supporting evidence in this regard.	It is recommended that the responsible team evaluate and implement the following corrective actions, based on the nature of the identified pattern: Ensure every interaction (buttons, links, 'X' icons) performs exactly the action the user expects based on standard UI conventions. INDIA CCPA GUIDELINES CCPA Guidelines, 2023 - Specified Dark Pattern: Bait and switch Bait and switch: Delivering a different, less desirable outcome than advertised. EUROPE DSA/GDPR/UCPD EU UCPD - Annex I (No. 5 & 6) Bait and Switch: Promoting one action but delivering a different, less desirable outcome.

Disguised Advertisements		-	06 Aug 2026
OBSERVATION	RECOMMENDATION		
Visual Audit Required: Potential Disguised Advertisement. During the review of www.libertyinsurance.in/health-insurance/health-connect-policy.html, the following was observed in relation to the identified <i>Disguised Advertisements</i> pattern: Ad-related labeling detected. Please refer to the Annexure for supporting evidence in this regard.	It is recommended that the responsible team evaluate and implement the following corrective actions, based on the nature of the identified pattern: Clearly label all promotional content as 'Ad', 'Sponsored', or 'Promoted' using distinct styling that separates it from main content. INDIA CCPA GUIDELINES CCPA Guidelines, 2023 - Specified Dark Pattern: Disguised Advertisements Disguised Advertisements: Masking ads as native site content or articles. EUROPE DSA/GDPR/UCPD EU UCPD - Annex I (No. 11) & DSA Article 26 Disguised Advertising: Designing adverts to look like organic editorial links or navigation controls.

06. Recommended Action Plan

Strategic steps to improve transparency and user trust. *Note: Preview fixes applied in the browser are temporary client-side simulations to help visualize resolved states. The recommendations below should be permanently implemented in the website's source code by your development team.*

OBSERVATION	RECOMMENDED ACTION	IMPLEMENTATION EXAMPLE	OWNER & TIMELINE
Using unverified activity to influence choice HIGH PRIORITY	Only show 'trending' or 'popular' labels if they are based on real-time, verifiable data.	Before: "100 people are viewing this right now" (faked) After: Real, verified purchase statistics or remove entirely	Backend Eng / Marketing PHASE 3 - BACKLOG / AUDIT
Sensitive choices switched on without clear consent HIGH PRIORITY	Don't tick marketing or tracking boxes by default. Use short, plain labels for each option.	Before: Pre-ticked checkbox for tracking/marketing After: Unchecked checkbox requiring explicit user action	Legal & Compliance / Product PHASE 1 - HOTFIX (< 24H)
Action results in unexpected outcome HIGH PRIORITY	Ensure every interaction (buttons, links, 'X' icons) performs exactly the action the user expects based on standard UI conventions.	Before: Clicking close [X] triggers a redirect After: Clicking close [X] only closes the modal	Frontend Engineering PHASE 1 - HOTFIX (< 24H)
Pop-ups or overlays are hard to close HIGH PRIORITY	Add a clear close control, visible on mobile and desktop, and let keyboard users exit too.	Before: Overlay pop-up block with no escape or close icon After: Prominent close [X] button + Escape key listener	Frontend Engineering PHASE 1 - HOTFIX (< 24H)
Ads look like editorial content MEDIUM PRIORITY	Clearly label all promotional content as 'Ad', 'Sponsored', or 'Promoted' using distinct styling that separates it from main content.	Before: Ad formatted to look like organic article text After: Explicitly label as "SPONSORED AD" or "ADVERTISEMENT"	Marketing / Frontend Eng PHASE 2 - NEXT SPRINT
Misleading icons or deceptive imagery HIGH PRIORITY	Ensure all icons and imagery accurately reflect the associated action. Do not use non-standard visual metaphors (e.g., a checkbox that is actually a radio button) to confuse users.	Before: Greyed-out decline buttons that look disabled but are active After: Normal high-contrast borders for all options	UI/UX Design PHASE 1 - HOTFIX (< 24H)

07. Behavioral Friction Analysis

Anonymous behavioral data collected during the audit session.

Session Duration Total audited browsing time	281s
Clicks Recorded Total interface interactions	27
Rage Click Bursts 5+ clicks/sec — sign of user frustration	None
Escape Attempts Clicks outside dialogs/overlays — unclear close targets	0

End of Report. Generated at 2026-08-06T17:27:44.184Z. This audit is a point-in-time snapshot. Regular audits are recommended for ongoing compliance.
